

FCC Commissioners
The Federal Communications Commission RE: Docket 04-435
445 12th Street, SW
Washington, DC 20554

Dear FCC Commissioners ,

I am writing to support the FCC's proposal to relax the restrictions on the use of cell phones on airplanes in flight.

There is no hard evidence that cell phone use doesn't interfere with navigational instruments. I would welcome the ability to take calls from the office to continue to conduct business will on the flight. I would also love to see some internet access to enable business travellers to be in contact with emails as well.

Sincerely,

Sean Cullen
